This SDS adheres to the standards and regulatory requirements of the United States and may not meet the regulatory requirements in other countries.

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : Ti-Pure® Titanium Dioxide Pigment - Paint Coatings - Slurry Grades
Product Grade/Type : R-741; R-746; R-941; R-942.
Tradename/Synonym : Supercedes MSDS 2816CR
MSDS Number : 150000002085
Product Use : Colouring agents, pigments
Manufacturer : DuPont
1007 Market Street
Wilmington, DE 19898
Product Information : 1-302-774-1000
Medical Emergency : 1-800-441-3637 (outside the U.S. 1-302-774-1139)
Transport Emergency : CHEMTREC: 1-800-424-9300 (outside the U.S. 1-703-527-3887)

SECTION 2. HAZARDS IDENTIFICATION

Potential Health Effects
Skin : Contact with dust can cause mechanical irritation or drying of the skin.
Eyes : Dust contact with the eyes can lead to mechanical irritation.
Inhalation : May cause nose, throat, and lung irritation.

Carcinogenicity
Material : IARC  NTP  OSHA
Titanium dioxide : 2B

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS
Material Safety Data Sheet

Ti-Pure® Titanium Dioxide Pigment - Paint Coatings - Slurry Grades

Version 4.0

Revision Date 10/03/2011

Ref. 150000002085

SECTION 4. FIRST AID MEASURES

Skin contact : Wash off with soap and water.

Eye contact : Rinse with plenty of water.

Inhalation : Remove person to fresh air. If signs/symptoms continue, get medical attention.

Ingestion : No specific intervention is indicated. Consult a physician if necessary.

SECTION 5. FIREFIGHTING MEASURES

Flammable Properties
Flash point : does not flash

Suitable extinguishing media : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Firefighting Instructions : The product itself does not burn.
SECTION 6. ACCIDENTAL RELEASE MEASURES

NOTE: Review FIRE FIGHTING MEASURES and HANDLING (PERSONNEL) sections before proceeding with clean-up. Use appropriate PERSONAL PROTECTIVE EQUIPMENT during clean-up.

Safeguards (Personnel) : Avoid breathing dust.
Spill Cleanup : Pick up and arrange disposal without creating dust. After cleaning, flush away traces with water.
Accidental Release Measures : Do not flush into surface water or sanitary sewer system.

SECTION 7. HANDLING AND STORAGE

Handling (Personnel) : Avoid creating dust.
Wash hands before breaks and at the end of workday.
Handling (Physical Aspects) : This is a fully oxidized mineral product. As such it cannot support combustion or participate in a dust explosion.
Storage : Do not freeze.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering controls : Use sufficient ventilation to keep employee exposure below recommended limits.
Personal protective equipment
   Respiratory protection : When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.
   Hand protection : Additional protection: Gloves
   Eye protection : Safety glasses with side-shields
Exposure Guidelines

Exposure Limit Values

Titanium dioxide

SECTION 11. TOXICOLOGICAL INFORMATION
Inhalation 4 h LC50 : > 6.82 mg/l, rat
Oral LD50 : > 5,000 mg/kg, rat
Skin irritation : Slight or no skin irritation, rabbit
Eye irritation : Slight or no eye irritation, rabbit
Sensitisation : Did not cause sensitization on laboratory animals, mouse
Did not cause sensitization on laboratory animals, guinea pig

Repeated dose toxicity : Oral rat
No toxicologically significant effects were found.
Inhalation rat
No toxicologically significant effects were found.

Carcinogenicity : In lifetime inhalation studies rats were exposed for 2 years to respectively 10, 50 and 250 mg/m3 of respirable TiO2. Slight lung fibrosis was observed at 50 and 250 mg/m3 levels. Microscopic lung tumours were also observed in 13 percent of the rats exposed to 250 mg/m3, an exposure level that caused lung overloading and impairment of rat lungs clearance mechanisms.

In further studies, these tumours were found to occur only under particle overload conditions in a uniquely sensitive species, the rat, and have little or no relevance for humans. The pulmonary inflammatory response to TiO2 particles exposure was also found to be much more severe in rats than in other rodent species.

In February 2006, IARC has re-evaluated Titanium dioxide as pertaining to Group 2B: "possibly carcinogenic to humans", based upon inadequate evidence in humans and sufficient evidence in experimental animals for the carcinogenicity of titanium dioxide. IARC evaluation guidelines consider the generation of tumours, in 2 different studies within the same animal species, to be adequate criteria for an assessment of sufficient evidence.
The conclusions of several epidemiology studies on more than 20000 TiO2 industry workers in Europe and the USA did not suggest a carcinogenic effect of TiO2 dust on the human lung. Mortality from other chronic diseases, including other respiratory diseases, was also not associated with exposure to TiO2 dust.

Based upon all available study results, DuPont scientists conclude that titanium dioxide will not cause lung cancer or chronic respiratory diseases in humans at concentrations experienced in the workplace.

Mutagenicity : Did not cause genetic damage in animals. Tests on bacterial or mammalian cell cultures did not show mutagenic effects.

**SECTION 13. DISPOSAL CONSIDERATIONS**

Waste Disposal : Dispose of in accordance with local regulations.

**SECTION 14. TRANSPORT INFORMATION**

Not regulated in transportation by DOT/IMO/IATA.
SECTION 15. REGULATORY INFORMATION

**EINECS Status**: On the inventory, or in compliance with the inventory

**TSCA Status**: On the inventory, or in compliance with the inventory

**AICS Status**: On the inventory, or in compliance with the inventory

**DSL Status**: On the inventory, or in compliance with the inventory

**ENCS (JP) Status**: On the inventory, or in compliance with the inventory

**KECI (KR) Status**: On the inventory, or in compliance with the inventory

**PICCS (PH) Status**: On the inventory, or in compliance with the inventory

**INV (CN) Status**: On the inventory, or in compliance with the inventory

**NZ HSNO Status**: Exempt

**SARA 313 Regulated Chemical(s)**: SARA 313: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

**California Prop. 65**: WARNING! This product contains a chemical known to the State of California to cause cancer. The listing of titanium dioxide (airborne, unbound particles of respirable size) as a carcinogen is effective September 2, 2011. The listing does not cover titanium dioxide when it remains bound within a product matrix.

**PA Right to Know Regulated Chemical(s)**: Substances on the Pennsylvania Hazardous Substances List present at a concentration of 1% or more (0.01% for Special Hazardous Substances): Titanium dioxide, Silicon dioxide, amorphous

**NJ Right to Know Regulated Chemical(s)**: Substances on the New Jersey Workplace Hazardous Substance List present at a concentration of 1% or more (0.1% for substances identified as carcinogens, mutagens or teratogens): Titanium dioxide, Silicon dioxide, amorphous
