1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Product name: FLEXX GEN 1 Hardcoat Solution

Product code: 27020392

Supplier Carestream Health, Inc., 150 Verona Street, Rochester, New York 14608

For Emergency Health Information call: 800-424-9300

For other information contact: 800-328-2910

Product Use: Manufacturing chemical.

2. HAZARDS IDENTIFICATION

Classification

Appearance Colorless

Physical state liquid

Odor Aromatic

Precautionary Statements - Prevention

Eyes
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Inhalation
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

Ingestion
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting.

Fire
In case of fire: Use CO2, dry chemical, or foam for extinction.

Precautionary Statement - Storage
Store in a closed container.

Precautionary Statements - Disposal
Dispose of contents/container to an approved waste disposal plant.

Hazards not otherwise classified (HNOC)
* Not applicable

Other Information
15% of the mixture consists of ingredient(s) of unknown toxicity

3. COMPOSITION/INFORMATION ON INGREDIENTS

4. FIRST AID MEASURES

First Aid Measures

General advice: Call 911 or emergency medical service. Remove and isolate contaminated clothing and shoes.

Eye contact: In case of contact with substance, immediately flush skin or eyes with running water for at least 20 minutes.

Skin contact: Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes.
Inhalation
Move victim to fresh air. Apply artificial respiration if victim is not breathing. Administer oxygen if breathing is difficult.

Ingestion
Do NOT induce vomiting. Drink plenty of water. Rinse mouth. Clean mouth with water. Never give anything by mouth to an unconscious person. Consult a physician. Call a physician or Poison Control Center immediately. Aspiration hazard. If vomiting occurs, lean victim forward to reduce risk of aspiration. Aspiration may cause pulmonary edema and pneumonitis.

Protection of First-aiders
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

Most important symptoms and effects, both acute and delayed

Main Symptoms
Causes serious eye irritation. May cause drowsiness or dizziness. Irritation. Central nervous system depression.

Indication of any immediate medical attention and special treatment needed

Notes to physician
Keep victim warm and quiet. Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media
Dry chemical, CO₂, water spray or alcohol-resistant foam. Water spray, fog or alcohol-resistant foam. Use water spray or fog; do not use straight streams.

Unsuitable Extinguishing Media
CAUTION: All these products have a very low flash point. Use of water spray when fighting fire may be inefficient.

Specific hazards arising from the chemical
Vapors may form explosive mixtures with air. Vapors may travel to source of ignition and flash back. Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks). Vapor explosion hazard indoors, outdoors or in sewers. Runoff to sewer may create fire or explosion hazard. Those substances designated with a "P" may polymerize explosively when heated or involved in a fire. Flammable. May form peroxides of unknown stability.

Hazardous Combustion Products
Carbon oxides.

Explosion Data
Sensitivity to Mechanical Impact None.
Sensitivity to Static Discharge Yes.

Protective Equipment and Precautions for Firefighters
Move containers from fire area if you can do it without risk.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions
ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). All equipment used when handling the product must be grounded. Do not touch or walk through spilled material. Stop leak if you can do it without risk. Use personal protective equipment. Keep people away from and upwind of spill/leak. Avoid contact with skin, eyes and clothing. Avoid breathing vapors or mists.

Other information
Water spray may reduce vapor; but may not prevent ignition in closed spaces.

Environmental precautions
Environmental precautions Prevent entry into waterways, sewers, basements or confined areas.

Methods and material for containment and cleaning up

Methods for Containment A vapor suppressing foam may be used to reduce vapors. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers.

Methods for cleaning up Dike far ahead of liquid spill for later disposal. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Use clean non-sparking tools to collect absorbed material.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling Keep away from open flames, hot surfaces and sources of ignition. Take precautionary measures against static discharges. Use only in an area containing flame proof equipment. To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded. Use only in area provided with appropriate exhaust ventilation. Wear personal protective equipment. Prevent the formation of vapors, mists and aerosols. There is a hazard associated with rags, paper or any other material used to remove spills which become soaked with product. Avoid accumulation of these: they are to be disposed of safely after use. Avoid static electricity build up with connection to earth. Avoid contact with skin, eyes and clothing. Avoid breathing vapors or mists.

Conditions for safe storage, including any incompatibilities

Technical measures/Storage conditions Keep containers tightly closed in a dry, cool and well-ventilated place. If peroxide formation is suspected, do not open or move container. Minimize exposure to air. After opening, purge container with nitrogen before reclosing. Periodically test for peroxide formation on longterm storage. Do not distill or allow to evaporate to near dryness.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure Guidelines

<table>

<td>STEL: 300 ppm, TWA: 200 ppm</td>
<td>TWA: 200 ppm</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Appropriate engineering controls

Engineering Measures Showers, eyewash stations, and ventilation systems. Apply technical measures to comply with the occupational exposure limits. Ensure that eyewash stations and safety showers are close to the workstation location. Ensure adequate ventilation, especially in confined areas.

Individual protection measures, such as personal protective equipment

Eye/Face Protection Tightly fitting safety goggles. Face-shield.
### Skin and body protection

Wear protective gloves/clothing. Skin contact should be prevented through use of suitable protective clothing, gloves, and footwear, selected with regard of use conditions and exposure potential.

### Respiratory protection

If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

### Hygiene measures

When using, do not eat, drink or smoke. Provide regular cleaning of equipment, work area and clothing.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### Physical and Chemical Properties

**Property** | **Values** | **Remarks/ • Method**
--- | --- | ---
Physical state | liquid |  
Appearance | Colorless |  
Color | No information available |  
Odor | Aromatic |  
Odor Threshold | No information available |  
**Property** | **Values** | **Remarks/ • Method**
--- | --- | ---
Melting point/range: |  |  
Boiling point/boiling range | 56 °C / 133 °F | No information available
Flash Point | -17.0 °C / 1.4 °F (Acetone) | No information available
Evaporation rate |  |  
Flammability (solid, gas) |  |  
upper flammability limit |  |  
lower flammability limit |  |  
Vapor pressure |  | No information available
Vapor density |  | No information available
Specific Gravity |  | No information available
Water Solubility |  | No information available
Solubility in other solvents |  | No information available
Partition coefficient: n-octanol/water |  | No information available
Autoignition temperature |  | No information available
Decomposition temperature |  | No information available
Viscosity, kinematic |  | No information available
Viscosity, dynamic |  | No information available
Oxidizing Properties | No information available |  
Explosive properties | No information available |

Bulk Density VALUE |  | No information available

## 10. STABILITY AND REACTIVITY

### Reactivity

Not applicable

### Chemical stability

Normally stable; however, on long term storage, materials containing similar functional groups form peroxides of unknown stability.

### Possibility of hazardous reactions

None under normal processing.
11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

**Product Information**

**Inhalation**
May cause irritation of respiratory tract. May cause drowsiness and dizziness. May cause central nervous system depression with nausea, headache, dizziness, vomiting, and incoordination.

**Eye contact**
Causes serious eye irritation.

**Skin contact**
Repeated exposure may cause skin dryness or cracking. May cause skin irritation and/or dermatitis.

**Ingestion**
May be fatal if swallowed. Aspiration may cause pulmonary edema and pneumonitis. May cause additional effects as listed under "Inhalation". May be harmful if swallowed. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Potential for aspiration if swallowed.

| Acetone | Severe eye irritation  
Mild skin irritation  
May cause drowsiness and dizziness  
Causes respiratory tract irritation. |
| Methyl ethyl ketone | Can cause CNS effects. Based on animal data and structure-activity relationships, this product is NOT expected to cause nervous system damage. |

Information on toxicological effects

**Symptoms**
Vapors may cause drowsiness and dizziness. Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.
27020392 - FLEXX GEN 1 Hardcoat Solution

Revision Date 2014-12-09

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Sensitization
No information available.

Mutagenic effects
No information available.

Carcinogenicity
No information available.

Reproductive toxicity
No information available.

STOT - single exposure
No information available

STOT - repeated exposure
No information available

Chronic toxicity
Avoid repeated exposure.

Target Organ Effects
Central nervous system, Respiratory system, Eyes, Skin.

Aspiration Hazard
May be fatal if swallowed and enters airways.

Numerical measures of toxicity - Product Information

Unknown acute toxicity
15% of the mixture consists of ingredient(s) of unknown toxicity

The following values are calculated based on chapter 3.1 of the GHS document.

ATEmix (oral) 3939 mg/kg
ATEmix (dermal) 11345 mg/kg

12. ECOLOGICAL INFORMATION

Ecotoxicity

5% of the mixture consists of component(s) of unknown hazards to the aquatic environment

13. DISPOSAL CONSIDERATIONS

Waste treatment methods

Waste Disposal Methods
This material, as supplied, is a hazardous waste according to federal regulations (40 CFR 261).

Contaminated packaging
Do not re-use empty containers. Dispose of in accordance with local regulations.

US EPA Waste Number
D001
